***„I want you to know: There exists an entirely different Russia.“***

## **Letters From a Prisoner**

Ten years in Russian penal colonies have marked Mikhail Khodorkovsky but could not break his spirits: Russian president Vladimir Putin might not see any longer any threat in his former political prisoner but the exiled Khodorkovsky hopes that Putin is utterly mistaken. Unexpectedly set free Khodorkovsky left prison as a man with stronger inner freedom, dedicating all his energy, ideas and power to create another Russia – a Russia without Putin.
